Becky and Mike,

I hope this finds you both well. On behalf of the Sierra Club, we would very much like to meet with you to discuss SO2 issues in the St Louis area, primarily the Jefferson County nonattainment SIP, the upcoming Labadie designation, and Ameren's siting of monitors at Labadie and Rush Island. We have submitted several comment letters addressing these points, but would like to discuss some of key issues and concerns. We expect that 2-4 Sierra Club representatives will join us, in person and by phone, for the meeting.

Any time after 11 am would work for us on any of these dates:

October 19, 21, and 26

November 4 and 18

We look forward to hearing from you.

Best regards,

Maxine

**Subject:** DNR SO2 Boundary Recommendation

Becky and Mike,

It was nice seeing you at the CPP stakeholder meeting this morning. Attached is DNR's final SO<sub>2</sub> boundary recommendation for the July 2016 designations, which is up for adoption at tomorrow's MACC meeting in St. Louis. As I mentioned, DNR decided to go with an unclassifiable recommendation for Labadie.

We'll be in touch soon about a possible meeting to discuss this and other issues related to SO<sub>2</sub>.

Regards,  
Ken
